POLREP NUMBER: 2 (Final) **RV-1**

**II. BACKGROUND**

Site Number: 02KD  
Delivery Order Number: EP-W-04-054-0027  
Response Authority: CERCLA  
CERCLIS Number: NJD011770013  
NPL Status: non-NPL  
State Notification: NJDEP notified  
Approval Status: approved  
Action Memorandum Status: September 30, 2005  
Start Date: March 13, 2006  
Completion Date: March 15, 2006

**III. SITE INFORMATION**

**A. Situation**

Former battery disposal area, active scrap recycling facility. The removal action was

completed on March 15, 2006. There are no operation and maintenance (O&M) activities planned or expected for this removal action.

Note that this POLREP, identified as POLREP No. 2 (Final, RV-1), is for the fund-lead removal action related to the construction of a temporary access barrier near the property boundary between the Site and just north of Sections D, E, and F in Willow Woods. A previous POLREP No. 2, dated May 24, 2006, was related to the PRP-lead removal action (BB-1) at the Site. The previous POLREP No. 2 will be revised (and renumbered) to reflect this adjustment.

**B. Actions Taken**

The EPA Emergency and Rapid Response (ERRS) contractor, WRS Infrastructure and Environment, and the OSC met at the Site on March 13, 2006 to review the extent of work that was required. On March 15, 2006 a temporary, high-visibility fence was installed near the property boundary between the Site and just north of Sections D, E, and F in Willow Woods. The barrier extended approximately 380 feet to isolate an area that was previously discovered to contain elevated levels of lead. Warning signs were also placed in this area facing Willow Woods.

**C. Next Steps**

At the time the field work for this action had been completed, the owner of the scrap yard was negotiating an Administrative Order on Consent with EPA to include installation of a fence around the Site and the establishment of engineering controls to restrict customer access to contaminated portions of the operating facility.

No other work is planned under the removal action at this time.

**D. Key Issues**

The Site has been proposed for placement on the National Priorities List.

**IV. COST INFORMATION**

Not available at this time.
